

Condition Xtra[®]

WATER CONDITIONING AGENT • DEPOSITION AID

CA Reg. No. 17545-50028

PRINCIPAL FUNCTIONING AGENTS:

Ammonium sulfate, Glycerol,
and Phosphoric acid 35%

CONSTITUENTS INEFFECTIVE

AS SPRAY ADJUVANT: 65%

TOTAL: 100%

* Contains 1.5 pounds ammonium sulfate per gallon.

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID

IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for further treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled, or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wear long sleeved shirt, long pants, shoes plus socks and chemical resistant gloves made of any waterproof material when mixing or handling concentrate. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

DIRECTIONS FOR USE

CONDITION XTRA is a concentrated water conditioning and deposition aid formulated with ammonium sulfate, sequestering agents and anti-foaming agents. CONDITION XTRA enhances the coverage, biological activity and absorption of herbicides, defoliant and desiccants whose labels specify the addition of ammonium sulfate and/or surfactants. CONDITION XTRA may be used on agricultural, aquatic, forestry, turf and ornamental, industrial and non-cropland sites. NOT FOR AQUATIC USE IN WASHINGTON.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with CONDITION XTRA. Use according to the most restrictive label directions for each product in any tank mix.

COMPATIBILITY: CONDITION XTRA provides excellent pesticide compatibility, mixing easily with glyphosates, including new potassium salt formulations such as Roundup WeatherMax. However, if the desired combination has not been previously used, a compatibility test is recommended.

MIXING: Shake well before using as product may separate. Fill spray tank ½ full of water and begin agitation. Add recommended amount of CONDITION XTRA. Add products as directed by label or in the following sequence and continue filling tank: (1) Dry flowables or water dispersible granules, (2) Wettable powders, (3) Flowables, (4) Solutions, (5) Emulsifiable concentrates. Continue agitation until spray solution is completely mixed. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

RECOMMENDATIONS: No product will provide 100% control of spray drift. Unexpected wind gusts can move spray onto sensitive plants or crops and cause severe damage. The effects of CONDITION XTRA and the spray application may be changed by environmental factors and the condition of the spray equipment. Use of this product requires the spray equipment to be properly calibrated, otherwise poor pesticide performance or off target drift may occur.

Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Also, higher rates than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. However, do not add this product at a rate which exceeds 2% of the finished spray volume.

AIR or GROUND: Use 2-6 quarts per 100 gallons of finished spray solution. Use the higher rates for higher pressures and increased drift reduction. For backpack or hand held sprayers, use ½ fl.oz. per gallon of finished spray solution. Use strainer screen no larger than 50 mesh. In some cases, additional ammonium sulfate or nitrogen fertilizer may be added as required by the pesticide label.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

STORAGE: Store in original container away from children, animals, foods, feeds and seeds. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal. **PRODUCT DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

CONDITIONS OF SALE AND WARRANTY

Monterey AgResources (MAR) warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. MAR neither makes, nor authorizes any agent or representative to make, any other warranties, express or implied, including fitness or merchantability.

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of MAR and Seller. Buyer and user acknowledge and assume all risks and liability resulting from the handling, storage and use of this material not in strict accordance with directions given herewith. In no case shall MAR or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by MAR and is accepted as such by the Buyer.
